PROJECT 3.2

PROJECT 2: Book Rep Customer Relations Management**DIFFICULTY LEVEL:** Intermediate**Overview**

This project updates the CRM HTML page you started in Project 2.2 to add some visual style and make it look professional.

Instructions

1. Use your `lab02-project02.html` file from the last chapter as a starting point (and rename it) or take our `chapter03-project01.html` starting point file.
2. Import your existing `reset.css` from Project 1 to reset all default styles.
3. Create an external style sheet named `chapter03-project02.css` and import as well.
4. Add styles to `chapter03-project02.css` so that it looks similar to that shown in Figure 3.32. Do not modify the markup within the `<body>` element. This means defining styles for the header, footer, section, and other tags.

Hint: Notice the backgrounds for each of the section headers. Use attribute selectors for the mail and telephone link icons as shown below:

```
a[href^="mailto"] {
    background: url(images/email.png) no-repeat 0 3px;
    padding-left: 1em;
}
a[href^="tel"] {
    background: url(images/call.png) no-repeat 0 3px;
    padding-left: 1em;
}
```

Testing

1. Visually compare your output to that shown in Figure 3.32.
